Lord of the Words

writathon

Lord of the Words

binary name: B1-lords.pdf & B1-novel.pdf
delivery method: GitHub

This writathon has 13 challenges to be completed in groups of 5 to 10.
You must meet them all to claim the coveted title of *Lords of the Words*.
On the day of the activity:

1. Gather the documents

- Register your group for the project.
All group members must be registered on the intranet.
The group leader must be appointed.
- Download the challenges.
They can be found in a PDF file on the intranet.
- Prepare your renderings.
The group leader must create the Github repository and the 2 documents to return.

2. Complete each of the 13 challenges

- 12 of your answers are to be gathered in *B1-lords.pdf*, which is none other than the PDF file containing the challenges that you will have directly completed.
The photo novel is to be made separately and named *B1-Novel.pdf*
These files are to be placed by the group leader on the deposit.

You need to find a way to annotate a PDF.

3. Evaluate

- Choose a group among the groups present at the same session as you.
- Exchange your renderings.
- Ask the assistant on site (or remotely) for the evaluation url
- Evaluate using the evaluation form

Don't forget to allow time for assembling the different challenges in the render file, and for quality control!

Good Rush !!!!
